Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Mention availability of hearing aid capable handsets in each advertisement such as bill inserts, newsletters, newspaper ads, mailers and brochures. Also have HAC info on our website and signage in our office.

Methodology for Functionality Levels

Red River Telephone offers HAC-compatible handsets and devices in all major price categories, including low-cost ("C" level <\$100), moderate-cost ("B" level; \$100-\$250), and high-end/feature-rich ("A" level; >\$250). Costs generally correlate with the number of features, but, if through experience, Red River Telephone finds that a certain handset contains features that work well with hearing aids, such as volume control, it will be labeled accordingly with an "A" level for functionality. Red River Telephone's sales staff can assist existing and prospective customers looking for a HAC-compliant device/handset. HAC-compatible handsets and devices vary in their inherent "levels of functionality," but typically at least one (1) HAC-compliant handset/device with features and services typical of its price category can be found that meets each customer's price range.
